Profile Summary

Motivated Computer Science graduate with hands-on experience in building web applications, implementing CRUD operations, and managing data using Python and MySQL. Seeking an SDE role to apply programming, problem-solving, and software development skills while learning advanced technologies and contributing to impactful projects

Education

B.Tech – Sumathi Reddy Institution of Technology for Women CGPA: 7.31	2023 – 2027
Intermediate – TGSWRS(JC)/(G)COE, Danavaigudem Percentage: 84%	2021 – 2023
SSC – Vidyaa Nilaya The School, Warangal CGPA: 10.0	2021

Skills

Programming: Python (Intermediate), Java (Basic), JavaScript (Basic)
CS Fundamentals: DSA, OOP, Operating Systems, DBMS, Computer Networks
Web & Database: HTML, CSS, MySQL
Tools & Platforms: Git, VS Code, Packet Tracer
Soft Skills: Problem-Solving, Teamwork, Communication, Time Management

Certifications

CCNA: Introduction to Networks	Nov 2025
Network Addressing and Basic Troubleshooting	Nov 2025
Security and Connectivity Support	Nov 2025
Cyber Threat Management	Nov 2025
Introduction to Modern AI	Nov 2025
Introduction to Cybersecurity	May 2025

Projects

Student Attendance Management System	<i>React, Spring Boot, MySQL</i>
- Developed a full-stack web application for managing student attendance with role-based authentication. - Implemented REST APIs for teacher and student modules to handle attendance records efficiently. - Optimized database queries, improving API response time by 25%. - Designed responsive UI with React, enhancing user interaction and usability. - Managed version control using Git for 15+ iterations, ensuring stable project development.	
Contact Management System	<i>Node.js, Express, MySQL, HTML/CSS/JS</i>
- Built a CRUD-based web application for storing and managing personal and professional contacts. - Implemented search and category filtering features for easy access to contacts. - Integrated backend APIs using Node.js and Express for seamless frontend-backend communication. - Optimized database queries, reducing data fetch time by 40%. - Maintained Git version control for 15+ updates, ensuring project stability and collaboration.
